

Jazz On The Green

PLANNING COMMITTEE

Jazz on the Green is much more than just a great concert and a good time; it is a charitable event that benefits The Children's Hospital of Southwest Florida. This, in fact, is the motivating force behind the dedicated professionals whose passion it is to breathe life into this extraordinary event.

The team that produces Jazz on the Green is comprised of over 40 altruistic individuals, who willingly devote thousands of hours to this event! Many of these individuals have served on this committee since it's inception! These people are NOT compensated whatsoever and give up untold free, family and business time to make Jazz on the Green a reality. Never happy to rest on their laurels, they are eternally seeking ways to create new and different ways to ensure that the event is a success. Those that have observed this group in action have been inspired and intrigued by the dedication and drive of these people for this cause. The synergy that this group has attained would be envied by the most cutting edge corporate cultures. These people, and their predecessors, are the very foundation and the real miracle of Jazz on the Green!
